

## IOS (Apple) Devices – Bluetooth Pairing

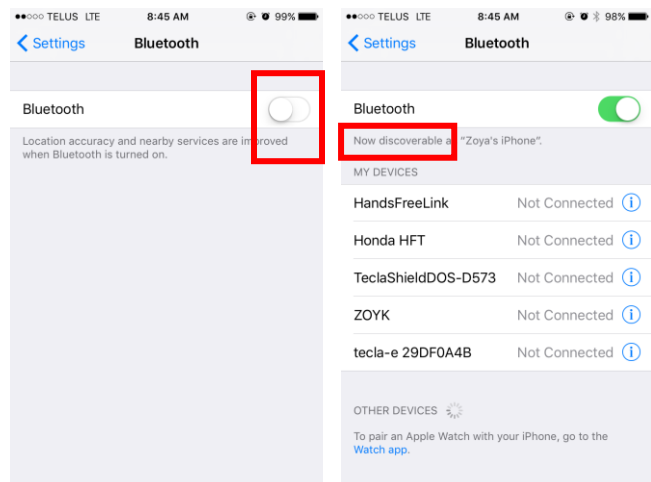

On your iOS device, go to  
Settings > Bluetooth

Turn on Bluetooth.  
Stay on this screen until you complete the steps to  
pair your accessory.

Place your accessory in discovery mode and wait  
for it to appear on your iOS device.

If you don't see it or aren't sure how to make it  
discoverable, check the instructions that came  
with your accessory or contact the manufacturer.

To pair, tap your accessory's name when it appears onscreen.  
You might need to enter the PIN or passkey.  
If you aren't sure what your PIN or passkey is, check the documentation for  
your accessory.
